

Sample Track®

Electronic Data Management

Customized software for sample data submission

Sample Track® provides a reliable electronic method to submit sample information. Electronic records improve quality control by eliminating lost or misplaced paperwork, virtually eliminating duplicates, and automatically identifying submitted samples. Barcode labels generated by Sample Track® reduces errors caused by variations in handwritten data.

Variety	Lot	%Warm Germ	% Abn.	% Dead	%Cold Germ
ABCD	432/MF	98	1	1	97
BR549RR	789	92	3	5	78

8N54321	P41GG	97	3	0	97
12/AB	WS4/MF	94	5	1	92

Sample Track® provides:

- Ability to create a label for sample bags.
- Ability to print a packing slip.
- Ability to create customized test reports.
- Ability to view test results immediately after test is completed.
- Ability to order tests electronically.
- A history (electronic list) of samples submitted containing the date/time submitted, tests ordered along with information about those samples.
