Seed and Crop Services Testing Newsletter

SGS is the leader in seed testing innovation and diagnosis of seed quality issues with locations in Brookings, SD, Memphis, TN, and Winnipeg, Manitoba, Canada.

Soil testing, custom soil sampling, fertilizer recommendations and field mapping are now available from SGS with locations in Brookings, SD, Belleville, IL and Toulon, IL.

Check out our webinar calendar for upcoming training opportunities for your staff. This new customer services feature has become very popular with our customers.

We are open to new ideas and suggestions. SGS has enormous capabilities in serving our customers in agriculture. Enjoy the field preparation season.

Sincerely Yours,

Tim Gutormson
Senior Vice President Agri North America

PRECISION AGRICULTURE WORKSHOP

Are you trying to figure out how to save \$ this year on your fertilizer bill? When you leave the workshop you'll have the latest information on soil sampling and fertilizer use. Make plans to come to the Brookings County Extension Complex for the **First Annual Precision Ag Workshop** sponsored by **SGS Brookings** on March 5, 2009. Registration begins at 8:15, and we have speakers scheduled from 9:00 - 2:00. [Read More](#)

UPCOMING WEBINARS

We will be offering the following webinars in March:

March 10th and March 17th – Curious about Sample Track®? Want to know more? Join Le Walls as he demonstrates the features of Sample Track®. 15 minutes. Free.

March 24th and March 26th – Non GMO Seed Testing Strategies. Learn more about how we test for the adventitious presence (unwanted presence) of biotech products. We will cover PCR, ELISA, Herbicide Bioassay tests. 30 minutes. Free. [Read More](#)

PLANT TISSUE ANALYSIS

SGS Brookings is pleased to announce that we are now offering Plant Tissue Analysis. SGS provides you the ability to test your crop's nutrient status during the growing season. Plant tissue analysis is another tool in your SGS toolkit to maximize your profits. [Read More](#)

NEW!! SGS BROOKINGS NOW HAS FIELD RESEARCH SERVICES

SGS Mid-West Seed Services, Inc. (SGS Brookings) of Brookings, South Dakota will begin conducting field research services this spring in conjunction with **SGS Alvey Agricultural Research (SGS Carlyle)** of Carlyle, Illinois. SGS Brookings will provide additional field research opportunities in EPA Zones 5 and 7 and is proud to be part of one of the largest agricultural field research firms in the Midwestern United States. [Read More](#)

DEVELOPMENT OF SEED TESTING PROTOCOLS

One of the exciting elements in seed testing is the diversity of the species we encounter. Several of the species are commonly grown crop species, such as corn or soybeans. [Read More](#)

SGS AND GLOBAL CAPABILITIES AND SERVICES

We have expanded our reaches to around the world. With being a part of the SGS network, we have the capability to assist you wherever your seed may be. SGS is a company that is global in many areas of service and locations. [Read More](#)

SGS MWSS ACCREDITATION UPDATES

Quality is an ever present thought at SGS Mid-West Seed Services. Our employees take quality seriously with monitoring of our processes throughout out the system. [Read More](#)

WINNIPEG LABORATORY UPDATE

Greetings from SGS Canada, I recently attended the crop production show in Saskatoon and had a SGS booth along with the Saskatoon people from SGS. The show was very well attended many people stopped by asking about the services we can provide. [Read More](#)

MEMPHIS LABORATORY UPDATE

Greetings from the Mississippi River Delta region here in Memphis, Tennessee. Soybean seed quality assessment continues to be in high gear with more conditioned product coming into the SGS Memphis Seed Lab for testing. Seed quality remains good except for those seed lots that possibly experienced rough handling during harvest and/or conditioning. [Read More](#)

LOOK FOR US AT THESE UPCOMING SPRING EVENTS

Look for us at these upcoming Spring Events. [Read More](#)
